

# Putzmeister Pipes Promotion 2025

Promotion period until 31 Dec. 2025

## PROLINE Efficiency comparison

\* Measured against the total costs over the service life of Proline 3000

## Tough times – Tough Proline delivery pipes – Toughly calculated offers

- Well-known and proven **Putzmeister manufacturer quality** for efficient and trouble-free pumping of concrete
- Proline pipes offer the necessary **hardness (up to HRC 67)** to successfully resist concrete abrasion
- **Tangible cost savings**  
Proline 2000 vs. Standard: 1,5 x  
Proline 3000 vs. Standard: 4,5 x
- Precisely fitting parts from the manufacturer **enable simple and time-saving assembly** in the seven Putzmeister branches in Germany
- **Almost even wear** thanks to smart pipe design at all points in the pipeline
- **Safety without compromise** in terms of stability and liability for the owner of the concrete pump when using the original Putzmeister manufacturer's pipework (conformity with CE-wide standards and safety standards (e.g. EN12001:2012))
- **Proven components** are optimally matched to the respective machine
